SUMMARY

Frontend-focused Web Developer with hands-on experience in building responsive web and mobile applications using React JS, React Native, and ASP.NET MVC. Graduated in Informatics Engineering from Sriwijaya University and Hacktiv8 React Bootcamp, with strong foundation in JavaScript, API integration, and UI implementation. Experienced in developing news platforms, mobile movie apps, and e-commerce systems. Seeking a Frontend or Mobile Developer role to build impactful digital products.

EDUCATION

Hacktiv8 ([Transcript](#)) **Indonesia**
FGA Bootcamp Web Development Program + React (Score 97.55/100) August 2024 – October 2024

Sriwijaya University **Palembang, Indonesia**
Bachelor of Informatics Engineering (GPA 3.51/4.00) August 2018 – February 2023

WORK EXPERIENCE

Freelancer **Palembang, Indonesia**
Tutor Jan 2025 – Present

- Tutored students with a primary focus on mathematics, while also assisting in other subjects as needed.
- Used interactive methods and real-life examples to support learning and exam preparation.
- Helped strengthen academic foundations and build students' confidence.

PT Pertamina Hulu Rokan **Jakarta, Indonesia**
Information Technology - Intern Sept 2024 – Jan 2025

- Migrated native templates to MVC using ASP.NET MVC framework and Kendo UI, enhancing application architecture and maintainability.
- Learned and utilized ArcGIS Maps to display interactive maps and mark locations based on longitude and latitude coordinates.

Freelancer **Palembang, Indonesia**
Tutor August 2023 – August 2024

- Provided private tutoring in mathematics covering topics such as statistics, geometry, fractions, scale measurements, velocity, and arithmetic operations.
- Developed tailored lesson plans to meet students' needs, ensuring their understanding of fundamental concepts.

CV Digital Creative **Palembang, Indonesia**
Programmer - Internship October 2020 – January 2021

- Completed the web interface for the Digital Creative Project Management System for file management.
- Built and designed web pages using HTML, CSS, Bootstrap, JavaScript, AJAX jQuery.
- Developed the Digital Creative Project Management System using PHP with the CodeIgniter framework.

SKILLS

Language: PHP, Python, JavaScript

Front End: HTML & CSS, React JS, React Native

Back End: Django, CodeIgniter, MySQL

PROJECTS

[News Web App](#) - Final Project Hacktiv8

October 2024

Built a responsive news app using React JS and the New York Times API with category filtering, search, and bookmarking features.

Tech stack: React JS, Bootstrap

[Movie App](#) - Final Project Progate

July 2024

Developed a mobile app to display movie details and allow users to search for movies with tab navigation and a favorites feature.

Tech stack: React Native, Typescript

[Ecommerce Django](#) - Final Project Women in Tech

June 2023

Developed an e-commerce website for clothing sales using the Django Framework, including features such as product sorting and PayPal payment integration.

Tech stack: Python, Django Framework, Cybersecurity

[Digit Recognition in Digital Tasbih Image](#) - Thesis

December 2022

Created an image recognition app for digital tasbih using Python, employing image processing techniques and the K-Nearest Neighbor algorithm for number recognition.

Tech stack: Python, OpenCV, Machine Learning

[Digital Creative Project Management System](#) - Internship

January 2021

Developed a project management web system with features for file management and interactive pages using PHP (CodeIgniter), HTML, CSS, Bootstrap, JavaScript, and AJAX.

Tech stack: PHP (CodeIgniter), HTML, CSS, Bootstrap, JavaScript, AJAX
